Amendment Of The Specification

Applicants respectfully request that their application be amended as follows:

Applicant herein requests that the following typographical correction be made to the specification at page 6 (second to last line) and page 7 (second line from the top).

Amend "source amino acids" to "sources of amino acids".

The amendment to the specification is typographical in nature and therefore does not add any new matter to the invention.

The corrected pages of the specification will be submitted when accepted.
